

East Gibson School Corporation Security Measures

The East Gibson School Corporation is in '**soft**' **lockdown** on a 24/7 basis. That means all the classroom doors and exterior building doors are locked. Visitors are asked to state who they are and the nature of their business when they are buzzed into a building.

During a **Lockout** all students will be recovered from outside the building, the building perimeter will be secured and all outside doors will be locked. This would be implemented when there is a threat or hazard outside of the building. Students will continue going to classes during a lockout.

During a **lockdown** all school interior doors are locked and students are confined to their classrooms and no entry or exit of the school is allowed. This takes place if there is a threat or possible threat inside the school. A **lockdown** is used to protect students from danger inside their school. These often require teachers to lock doors, turn out lights, and instruct students to hide in silence.
